

Unseen Fibre Optics Squebble

Ultra-thin fibre cable designed to keep wires out of sight up to 30m

The Blake UK UFO (Unseen Fibre Optics) Squebble (Square Pebble) is an innovative ultra-slim transparent cable housed within a discreet dismount box.

Designed for installations where aesthetics are crucial, this cable can be effortlessly reeled out to a length of up to 30m. Its unique construction allows it to blend seamlessly into any environment, ensuring that the visual integrity of the space is preserved while providing exceptional connectivity.

- **Ultra-Slim Design:** The cable's slender profile allows for easy installation in tight spaces without disrupting the room's appearance.
- **Bend-Insensitive Fibre:** High-performance single-mode fibre ensures durability and reliability, even in tight spaces, reducing the risk of damage.
- **Discreet Dismount Box:** The cable is neatly coiled in a dismount box, ensuring a clean and organised setup.
- **Customisable Length:** Reel out the cable to the desired length (up to 30m), providing flexibility for various applications.
- **Versatile Application:** Ideal for installation along walls, ceilings, or skirting boards, maintaining a virtually invisible presence.
- **Discreet Securing Options:** The cable can be discreetly secured using sealant or glue for a seamless installation that keeps it hidden from view.
- **Aesthetic Compatibility:** The clear fibre blends effortlessly into both modern and traditional settings, enhancing the room's décor without drawing attention to the cable.
- **Flexible Connector System:** Equipped with an SC/APC bulkhead adaptor and LC/APC plug connector, ensuring compatibility with a wide range of devices and systems.
- **1.5m SC/APC Patch Lead Included:** A pre-supplied patch lead ensures a simple, hassle-free connection to the ISP's ONT, simplifying the setup for installers and users alike.

Fibre Type	Single-mode fibre
Cable Diameter	900µm
Connector Types	LC/APC on one end; SC/APC bulkhead adaptor on the other
Cable Length	30m
